

Help us prevent the spread during your child's health exam

As children's health exams resume, we are taking as many steps as possible to prevent the spread of the virus. We ask for your cooperation and understanding regarding the following points.

- Please refrain from coming to the examination if either you or the child has a fever, cough, or any other symptoms; or if you are pregnant or have a pre-existing health condition (diabetes, heart disease, etc.).
- In order to keep the number of people to a minimum, please refrain from coming with siblings, grandparents, etc. if at all possible.
- During the examination, we ask that all parents/guardians wear a mask, wash their hands, and take all other precautions to help prevent the spread.
